

**REMARKS**

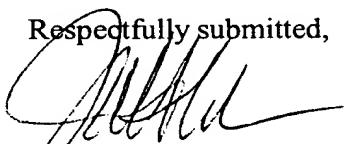

Careful consideration has been given to the Official Action of March 28, 2002 and the above amendatory action has been taken to place the application into condition for allowance.

In this respect, the Examiner has allowed claims 25 - 48 and has only found an informality in that the specification is not completely legible. In accordance with the Examiner's requirement, a substitute specification is attached hereto and avoids the objection and places the application into condition for allowance.

It is requested, if necessary, that the Abstract on the face page of the PCT Publication be used as the Abstract of the Disclosure in the present application.

By reason of the above action and comments, the application is now in condition for allowance. A Notice of which would be appreciated.

Respectfully submitted,
